

EXP NO: 3

SETTING UP EPICS, FEATURES, AND USER STORIES FOR PROJECT PLANNING

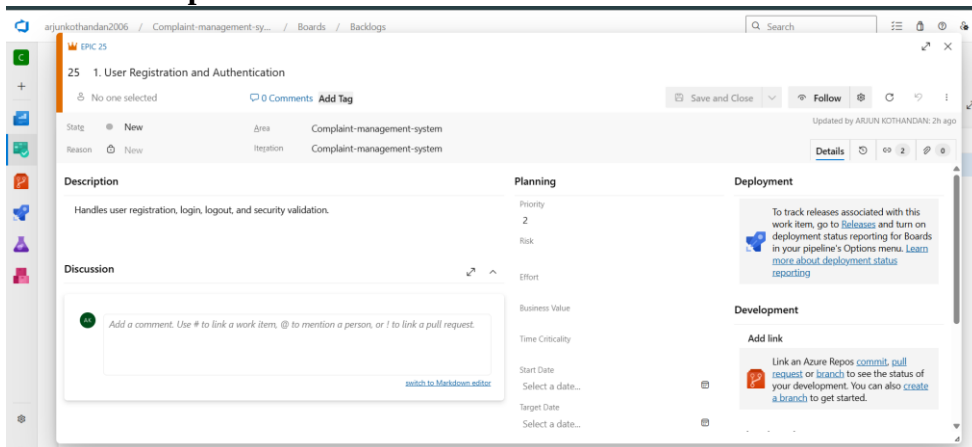

Aim:

To learn about how to create epics, user story, features, backlogs for your assigned project.

Create Epic, Features, User Stories, Task

1.Fill in Epics

2.Fill in Features

The screenshot shows a Jira Feature page for '2.1 Submit Complaint' (ID 35). The page is titled 'FEATURE 35' and has a state of 'New'. The area is 'Complaint-management-system' and the iteration is 'Complaint-management-system'. The description is 'Parent: Submit and Manage Complaints'. The planning section shows a priority of 2. The deployment section has a note about tracking releases. The development section has a note about linking an Azure Repos commit, pull request, or branch. The page is updated by ARJUN KOTHANDAN 1h ago.

3.Fill in User Story Details

The screenshot shows a Jira User Story page for '2.1 User can submit complaint' (ID 36). The page is titled 'USER STORY 36' and has a state of 'New'. The area is 'Complaint-management-system' and the iteration is 'Complaint-management-system\print 2'. The description is 'As a user, I want to submit a complaint with a title, category, description, and optional image so that my issue is properly recorded and can be addressed by the concerned team.' The acceptance criteria are: 'User can enter complaint title and description', 'User must select category', 'Image upload should work', 'Complaint should be saved', and 'Default status should be "Submitted"'. The planning section shows a story points of 2. The deployment section has a note about tracking releases. The development section has a note about linking an Azure Repos commit, pull request, or branch. The page is updated by ARJUN KOTHANDAN 43m ago.

Result:

Thus, the creation of epics, features, user story and task has been created successfully.
